

## **Brush/Tree Limb Collection Service**

Brush Collection entitles each residence to **15 minutes** of brush/tree limb pick-up during your area's scheduled collection week each month. Brush/limbs **must** be out by that Monday morning of your designated week to insure pick-up & must be placed at your residence.

Brush/limbs should be cut and stacked neatly at the edge of the customer's street curb line or edge of the paved street surface, if sanitation service is normally provided on a city street adjacent to the customer's premises. If your garbage is serviced in the alley, brush should be placed at the property line adjoining the city alley. Please **do not** block any portion of the alley or place brush/tree limbs in the street. Brush will be picked up at no other location, and in no case shall Brush Department crews enter private property to cut or remove brush debris.

Brush shall be limited to **5 feet in length, 12 inches in diameter** and **no more than 40 pounds in weight** for any single branch. Brush/limbs must be separated from logs.

Brush collectors **will not** remove the following items:

- Mixed piles ( garbage or lumber)
- Yard trimmings (leaves, grass, etc.) These items should be bagged for garbage pick-up.
- Banana plants, palm tree/leaves, cactus or bamboo. These items must be bundled or bagged for garbage pick-up.

For brush schedule, large piles or additional information, call Citizen Relations at 401-2445
