

Seguin, let's SHOW the MPO how much we care!

Public participation plays a vital role when the Alamo Area Metropolitan Planning Organization (MPO) decides how federal and state gas tax funds will be allocated for roadway, transit, rideshare, pedestrian and bike projects in the greater San Antonio region.

That means the better the public attendance and participation at the Seguin meeting, the more likely it is that funds will be allocated for important Seguin transportation projects!

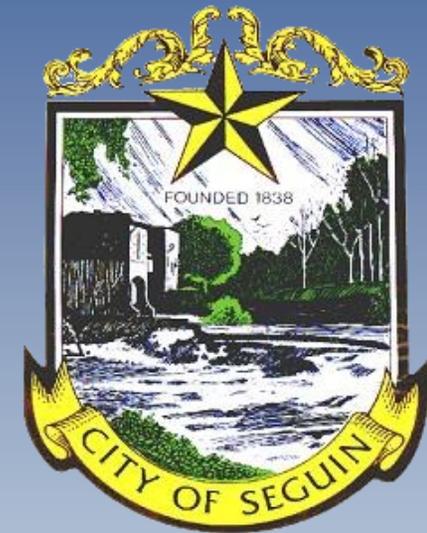

Please come to the public meeting and show the MPO how much Seguin cares about its transportation needs!

The MPO's mission is to provide a comprehensive, coordinated and continuous ("3C") transportation planning process for the safe and efficient movement of people and goods, consistent with the region's overall economic, social and environmental goals. The MPO places special emphasis on providing equal access to a variety of transportation choices and effective public involvement in the transportation planning process.
