## **PRESTON DRIVE OVERLAY PROJECT STARTS SOON**

**SEGUIN**, Texas – Crews are starting a road improvement project on Preston Drive. The project will take about a month to complete and covers Preston Drive from East Court Street to F.M. 466.

The contractor will be leveling the sides of the street through a milling process to ensure the new layer of asphalt will be flush with existing curbs, driveways and intersections.

Construction will be completed a lane at a time in order to keep one lane of traffic open. Drivers are asked to be attentive during the process and watch for traffic signs and flaggers.

If you have any questions, please call 830-386-251. Crews will begin work this week and should be done by mid-July pending any major weather delays.

The project will extend the life of Preston Drive at less cost and time than a complete reconstruction of the roadway. ###
