

# NEW BRAUNFELS - SEGUIN | PRELIMINARY REGIONAL TRANSPORTATION PLAN

Come share your vision for transportation in your community!

## Community Kick Off

To introduce the project, describe the purpose and schedule of the project, and identify issues and opportunities.

May 12

6pm | Seguin Coliseum | 810 S. Guadalupe St., Seguin

May 18

6pm | New Braunfels Civic Center | 375 S. Castell Ave., New Braunfels

## Open House

To share draft concepts and gather input from community on concepts and facilities being proposed.

June 16

6pm | Seguin Coliseum | 810 S. Guadalupe St., Seguin

June 20

6pm | New Braunfels Civic Center | 375 S. Castell Ave., New Braunfels

## Draft Plan Presentation

To present the recommended plan and solicit feedback.

July 18

6pm | New Braunfels Civic Center | 375 S. Castell Ave., New Braunfels

July 21

6pm | Seguin Coliseum | 810 S. Guadalupe St., Seguin

## Final Plan Presentation

To present Final Preliminary Regional Transportation Plan for municipal approval.

Aug 16

6pm | Seguin Coliseum | 810 S. Guadalupe St., Seguin

Aug 22

6pm | New Braunfels Civic Center | 375 S. Castell Ave., New Braunfels

In 1962, the United States Congress passed legislation that required the formation of Metropolitan Planning Organizations (MPOs) for all census designated urbanized areas (UZAs) with populations greater than 50,000. MPOs plan and program funding for transportation projects and activities at a regional level. This establishes metropolitan, region-wide plans developed through intergovernmental collaboration, rational analysis, and consensus-based decision making.

As a result of the 2010 Census, the City of New Braunfels is assured of achieving this UZA population threshold, with a published figure of 57,740 within its corporate limits. The City of New Braunfels and the City of Seguin are interested in jointly pursuing the possibilities of forming a regional metropolitan planning organization within Comal and Guadalupe Counties.

Part of this process will be to create a preliminary regional transportation plan. This transportation plan will review existing plans for the cities and counties, make recommendations on the consistency of these plans, determine the appropriate types of road sections, and review the environmental aspects of relocating and expanding roads and proposing any new roadway alignments.
