Salinas Technologies, LTD., will be working both Saturday and Sunday until further notice.

You asked.....We answered

Q. Will the City reimburse the property owner for expenses paid to a plumber for decommission of the septic tank?

A. NO. The grant as it is being proposed will allow the City to hire a contractor to decommission septic tanks in the OVN subdivision under one contract. Should the property owner choose to have a plumber perform the decommissioning work during tapping into the new sewer line, all cost associated, will be the responsibility of the property owner. However, at this time the City has not received notice of grant approval to proceed with this project. The City should know if the project is awarded funding by October 2013.

Construction work is set to resume on Phase IV of the Geronimo Creek Sewer Project from IH 10 to the edge of the Oak Village North. Please refrain from contacting workers or the contractor(s) directly. If you experience a problem, please use **STAFF CONTACTS**. Thank you for your continued patience.
