

**CITY OF
SEGUIN**

Geronimo Creek Sewer Project – Phase V Oak Village North Subdivision

Volume 2, Issue 16

Week Ending
September 27, 2013

Project Update

Work completed this week:

-6 Driveways
-300 linear feet of curb

Concrete Crews:

The curb and driveway crews continue their way towards Martindale Road, along Twin Oak, and will move onto Burr Oak.

Utility Crews:

The utility crews have started adjusting the points of sewer pipe in the locations that have been identified to have low points within the line. Because locations vary throughout the project, we are unable to predict the start and

end of each point repair. Therefore, we continue to request motorists adhere to barricades and/or detour signs over the next few weeks.

Dirt/Street Crew:

The dirt crews continue to clean behind the back of curb and are shaping the drainage swale. Repairs continue to driveways, driveway pipe(s), mailboxes and all other miscellaneous issues to repair the area back to its original condition.

Service Tap Inspection:

The video inspection by All Points Inspection will begin on Tuesday,

October 1, 2013. Work will begin on Burr Oak to Twin Oak working towards the back of the subdivision.

Electric Conduit:

Reminder that the City's electric department will continue performing upgrades in the neighborhood.

Newsletter Info:

A newsletter will be dispersed every week from this point on. We are hopeful that we will be able to report progress milestones by Salinas. We will however, keep the neighborhood aware of major issues.
