

PUBLIC LIBRARY

INFORMATION ★ IMAGINATION ★ INSPIRATION

Community Meeting Room AV System Requirements

The Library Community Meeting Room is equipped with an overhead projector and motorized screen. We strongly recommend visiting the library **before your meeting** to make sure your equipment will work with our equipment. Just let the meeting room scheduler know you'd like to do that and she will schedule an appointment with our technology staff to meet with you.

Note: Technology staff may not be available on the day of your reservation to help solve a problem. Don't let equipment issues disrupt your meeting please, plan ahead.

In order to project to the screen, please ensure that the following System Requirements are met.

Apple Devices:

HDMI cable using an Apple Digital AV Adapter. A Lightning port adapter is available.

Windows and Android Devices:

HDMI cable using an AV Adapter: AV Adapters available at the Library: HDMI (for better video quality is recommended), VGA, MiniDisplay and Lightning.
